

Product Communication

Type: EMEA Product Announcement
Number: EMEA-PM08-044
Date: December 19th 2008
Subject: SF51 Configuration Number Change

Effective immediately, the SF51 scanner order numbers have changed from “B” to “C” configurations as noted in the table below:

Current Configuration	Description	New Configuration
270-099-001	Kit, SF51B02100, Charger, PS, BT USB Adp (NA / EMEA radio)	270-099-002
270-103-001	Kit, SF51B02100, Charger, PS (NA / EMEA radio)	270-103-002
270-106-001	Kit, SF51B02100, Keyport Lite, PS, Chrgr, BT (Keyport Lite virtual keyboard wedge for PC applications. BT NA / EMEA radio)	270-106-002
SF51B01100	SF51 Non PDF, W/Belt Clip (For sale in North America / EMEA)	SF51 C 02100
SF51B02100	SF51 With PDF, W/Belt Clip (For sale in North America / EMEA)	SF51 C 02100
SF51B02200	SF51 With PDF, W/Belt Clip (For sale in China / Japan)	SF51 C 02200

Differences Between the B and C Configurations

New Bluetooth radio module. This change was driven by component obsolescence within the module used for B configuration. There is no change to the module specification, and the C configurations are fully backward and forward compatible with Intermec’s Bluetooth-enabled mobile computers and serial adapters. The “rubber-like” over mold material has been changed to offer greater wear resistance. This new material is only offered in certain colours with the net result being a slightly darker colour for the SF51C configurations. 1D-only configurations will be eliminated. This is due to low volume sales for the non-PDF configurations. Customers will be able to continue purchasing configuration SF51B01100 on a first come first served basis, until stocks are depleted.

Scan optics available for the SF51 include Linear Imager (EV10) which supports 1D and PDF decode algorithms.

Please note: there are no list price differences between the B and C configurations.

Scanner Sales Tools

Intermec scanner sales tools and information can be accessed via the respective launch kit folders. Please note the SF51 video has been updated to reflect the scanner being used in a wearable scanning application.

Honours Partner Path (note: your GSS login and password are required)

To access the SF51 or other scanner launch kits, go to www.intermec.com. Click on Partner Login in the upper right hand corner of the main home page. Access the GSS using your Global Sales and Service login and password. Then, click on Product Tools in the main body of the page, then Launch Kits.
